If you have chronic illness of the liver, stomach or blood or have immune disorders, you are at greater risk of serious illness from raw oysters and should eat oysters fully cooked. There is risk associated with consuming raw and under-cooked fish, meat, or poultry products (medium, medium-rare, rare, or extra-rare). If you have chronic illness of the liver, stomach, or immune disorders, you are at greater risk of serious illness from fish, meat, or poultry and should eat them fully cooked. Some of these conditions have no symptoms, so you may not know you are at risk. Particularly vulnerable young children, pregnant women, or older adults, sufferers of liver disease or alcoholism and those with compromised immune systems.

Additional GF options available upon request.
